Line 1 confirmation:

A. LEA MOE for Eligibility

Enter the amounts below, of either state and local funds or only local funds, to demonstrate MOE for grant eligibility purposes. Remember, to be eligible the budgeted amount must equal or exceed the expenditures for the most recent prior year in which complete expenditure data are available and the LEA was in MOE compliance. LEAs must ensure auditable documentation, including all expenditure and budget data referenced below, is on file to support the data reported and must be made available to TEA upon request.

Description	Expenditure
1. Amount of special education expenditures for the most recent prior year in which complete expenditure data are available and the LEA was in MOE compliance.	\$112,122,701
2. Budget for special education for 2023-2024	\$100,962,650
3. If the LEA's budget does not equal or exceed the amount expended in the most recent prior year in which complete expenditure data are available, due to federally allowable exceptions or state reconsiderations, provide a specific justification including the amount of reduction. The amount of the reduction plus the budget amount must equal or exceed amount of expenditures. Note that this is used for grant eligibility purposes only and not final compliance determinations. All applicable federal exceptions and state reconsiderations will be reviewed and approved or rejected during the IDEA-B MOE compliance determination process.	Budgeted Reduction Amount
