

2017–18 A–F Ratings for Campuses

A report to the 86th Texas Legislature from
the Texas Education Agency

December 28, 2018

Submitted to
the Senate Committee on Education,
the Senate Committee on Higher Education,
the House Committee on Public Education,
and the House Committee on Higher Education

Executive Summary

The ratings in this report are based on the development of the A–F system as of August 2018.

House Bill 22

[House Bill \(HB\) 22](#) (85th Texas Legislature, 2017) requires changes to the state public school academic accountability system, effective with the 2017–18 school year. The changes include creating three domains of indicators to measure district and campus progress toward meeting three main goals:

- Preparing students for postsecondary success
- Reducing achievement gaps among students from different racial and ethnic groups and socioeconomic backgrounds
- Informing parents and the community about district and campus performance

Beginning in August 2018, districts received ratings of *A*, *B*, *C*, *D*, or *F* for overall performance, as well as for performance in each of three domains:

- Student Achievement
- School Progress
- Closing Performance Gaps

Requirements for the 2017–18 Campus Ratings Report

The bill requires the agency to release a report to the Texas Legislature by January 1, 2019, showing the ratings that each campus would have received for the 2017–18 school year if the A–F rating system had been in place for campuses. This report fulfills that requirement.

Process for Determining Domain Indicators and Construction

The commissioner considered recommendations from two accountability advisory committees that reviewed both the construction of and the indicators used in the new accountability system. The Accountability Technical Advisory Committee (ATAC), comprised of representatives from districts and regional education service centers (ESCs), made recommendations for major policy decisions and technical issues. The Accountability Policy Advisory Committee (APAC), comprised of representatives from legislative offices, school districts, parent groups, and the business community, identified issues critical to the accountability system and reviewed ATAC recommendations. Additionally, the commissioner considered recommendations from various stakeholder groups across the state, including the following:

- School Board Members
- Superintendents
- Principals
- Other Administrators
- Teachers
- Parents
- Business Leaders
- Advocates
- Students

A–F Accountability System

The overall design of the accountability system evaluates performance according to three domains. For additional information on each domain, please see Chapters 2, 3, and 4 of the [2018 Accountability Manual](#).

Student Achievement Domain

Student Achievement evaluates performance across all subjects for all students, on both general and alternate assessments, College, Career, and Military Readiness (CCMR) indicators, and graduation rates.

STAAR Component—Methodology

One point is given for each percentage of assessment results across all subjects that are at or above the following:

- Approaches Grade Level or above
- Meets Grade Level or above
- Masters Grade Level

The STAAR component score is calculated by dividing the total points (cumulative performance for the three performance levels) by three resulting in an overall score of 0 to 100 for all districts and campuses.

College, Career, and Military Readiness Component—Methodology

The CCMR component of the Student Achievement domain measures graduates' preparedness for college, the workforce, or the military. One point is given for each annual graduate who accomplishes any one of the CCMR indicators, except for CTE coherent sequence graduates who earn one-half point credit for coursework completion and credit aligned with industry-based certifications:

- Meet Texas Success Initiative (TSI) Criteria in ELA/Reading and Mathematics
- Meet Criteria on Advanced Placement (AP)/International Baccalaureate (IB) Examination
- Earn Dual Course Credits
- Enlist in the Armed Forces
- Earn an Industry-Based Certification
- Earn an Associate's Degree
- Graduate with Completed IEP and Workforce Readiness
- CTE Coherent Sequence Coursework Aligned with Industry-Based Certifications

Graduation Rate Component—Methodology

The graduation rate component of the Student Achievement domain includes the best of the four-year, five-year, and six-year high school graduation rates or the annual dropout rate, if no graduation rate is available.

Student Achievement Domain Rating—Methodology

For elementary, middle, and high schools/K–12s without CCMR or graduation rate components, the STAAR component scaled score is the Student Achievement domain scaled score. For high schools, K–12s, and districts with CCMR and graduation rate component, the STAAR component scaled score is weighted at 40 percent, the CCMR component scaled score at 40 percent, and the graduation rate converted score at 20 percent to determine the Student Achievement domain scaled score.

For districts and campuses lacking a graduation rate component, the STAAR component scaled score is weighted at 50 percent and the CCMR component scaled score at 50 percent to determine the Student Achievement domain scaled score.

For districts and campuses lacking both the CCMR and the graduation rate components, the STAAR component scaled score is the Student Achievement domain scaled score.

For more information about scaling, please see “Chapter 5—Calculating 2018 Ratings” of the [2018 Accountability Manual](#) or visit our Scaling Resources page at www.tea.texas.gov/2018scalingresources.aspx.

School Progress Domain

School Progress measures district and campus outcomes in two areas: the number of students that grew at least one year academically (or are on track) as measured by STAAR results and the achievement of all students relative to districts or campuses with similar economically disadvantaged percentages.

School Progress, Part A: Academic Growth—Methodology

School Progress, Part A: Academic Growth provides an opportunity for districts and campuses to receive credit for STAAR results in ELA/reading and mathematics that either meet the student-level criteria for the STAAR progress measure or maintain proficiency. For additional details about how points are awarded, please see “Chapter 3—School Progress Domain” of the [2018 Accountability Manual](#).

School Progress, Part B: Relative Performance—Methodology

School Progress, Part B: Relative Performance measures the achievement of all students on either STAAR across all subjects or STAAR across all subjects and the College, Career, and Military component (if available) relative to districts or campuses (by campus type) with similar economically disadvantaged percentages.

School Progress Domain Rating—Methodology

The better outcome of the School Progress, Part A or Part B scaled scores is used for the School Progress domain rating. If either Part A or Part B’s scaled score results in an *F/Improvement Required* rating, the highest scaled score that can be used is an 89. For more information about scaling, please see “Chapter 5—Calculating 2018 Ratings” of the [2018 Accountability Manual](#).

Closing the Gaps Domain

Closing the Gaps uses disaggregated data in four components to demonstrate differentials among racial/ethnic groups, socioeconomic backgrounds and other factors. The indicators included in this domain, as well as the domain's construction, align the state accountability system with the Every Student Succeeds Act (ESSA).

The Closing the Gaps domain evaluates performance of fourteen student groups:

- All students
- Seven racial/ethnic groups: African American, American Indian, Asian, Hispanic, Pacific Islander, white, and two or more races
- Economically disadvantaged
- Students receiving special education services
- Students formerly receiving special education services
- Current and monitored English learners (through year four of monitoring)
- Continuously enrolled
- Non-continuously enrolled

Academic Achievement—Methodology

Each student group is evaluated by subject area on the percentage of ELA/reading and mathematics assessment results that are at the Meets Grade Level or above standard. Each student group's performance is then compared to the 2018 Academic Achievement performance targets. The performance targets are provided in "Chapter 4—Closing the Gaps Domain" of the [2018 Accountability Manual](#).

Academic Growth Status—Methodology

For elementary and middle schools, as well as high schools, K–12s, and districts without graduation rates, each student group is evaluated by subject area on the percentage of ELA/reading and mathematics assessment results that maintained proficiency or met the growth expectations on STAAR. Each student group's performance is then compared to the 2018 Academic Growth Status performance targets. Please see "Chapter 3—School Progress Domain" for details on how points are awarded for growth. The performance targets are provided in "Chapter 4—Closing the Gaps Domain" of the [2018 Accountability Manual](#).

Federal Graduation Status—Methodology

For high schools, K–12s, and districts with graduation rates the Federal Graduation Status component measures the federal four-year graduation rate for each student group in the Class of 2017. Texas uses the National Center for Education Statistics (NCES) dropout definition and the federal calculation for graduation rate. For the Class of 2017, the four-year graduation target is 90 percent of students graduate with a regular high school diploma in four years. The performance targets are provided in "Chapter 4—Closing the Gaps Domain" of the [2018 Accountability Manual](#).

English Language Proficiency Component—Methodology

The English Language Proficiency component measures an English learner's (EL) progress towards achieving English language proficiency. Current ELs are the only students evaluated in this component. Due to changes to the TELPAS, the data evaluated in this indicator lags a year. For 2018 accountability, the English Language Proficiency component evaluates TELPAS outcomes from 2015–16 and 2016–17.

Student Achievement Domain Score: STAAR Component Only—Methodology

For elementary and middle schools, as well as high schools, K–12s, and districts without annual graduates, the Student Achievement Domain Score: STAAR Component Only evaluates STAAR results in all subject areas at the Approaches Grade Level or above, Meets Grade Level or above, and Masters Grade Level standard. The performance rates calculated in this component are the disaggregated results used in the Student Achievement domain. The performance targets are provided in “Chapter 4—Closing the Gaps Domain” of the [2018 Accountability Manual](#).

College, Career, and Military Readiness Performance Status—Methodology

For high schools, K–12s, and districts with annual graduates the College, Career, and Military Readiness Performance Status component measures students’ preparedness for college, the workforce, or the military. This component differs slightly from the CCMR component in the Student Achievement domain. The denominator used here is annual graduates plus students in grade 12 who did not graduate. The performance targets are provided in “Chapter 4—Closing the Gaps Domain” of the [2018 Accountability Manual](#).

Closing the Gaps Domain Rating—Methodology

The percentage of eligible indicators met out of the total eligible indicators determines the component scores. Each component is weighted according to the following table and scaled. For more information about scaling, please see “Chapter 5—Calculating 2018 Ratings” of the [2018 Accountability Manual](#).

Closing the Gaps Component Weights		
Campus Types	Closing the Gaps Domain Component	Weight
Elementary and Middle Schools	Academic Achievement	30%
	Academic Growth Status	50%
	English Language Proficiency	10%
	Student Achievement Domain Score: STAAR Component Only	10%
High Schools, K–12s, AEs, and Districts	Academic Achievement	50%
	Federal Graduation Status or Academic Growth Status	10%
	English Language Proficiency	10%
	College, Career, and Military Readiness or Student Achievement Domain Score: STAAR Component Only	30%

Overall Rating

The better outcome of the Student Achievement and the School Progress domain scaled scores is weighted at 70 percent. If either domain's scaled score results in an *F/Improvement Required* rating, the highest scaled score that can be used is an 89.

The Closing the Gaps domain scaled score is weighted at 30 percent. The total weighted outcome of the two scaled scores is the overall score.

A district may not receive an overall or domain rating of *A* if the district includes any campus with a corresponding overall or domain rating of *Improvement Required*. In this case, the highest scaled score a district can receive for the overall or in the corresponding domain is an 89.

If an *F/Improvement Required* rating is received in three of the four areas of Student Achievement; School Progress, Part A: Academic Growth; School Progress, Part B: Relative Performance; or Closing the Gaps, the highest scaled score a district, open-enrollment charter school, or campus can receive for the overall rating is a 59. In order for this provision to be applied, the district, open-enrollment charter school, or campus must be evaluated in all four areas.

School districts, open-enrollment charter schools, and campuses directly affected by Hurricane Harvey (as defined by Chapter 10 of the *2018 Accountability Manual*) were eligible for special evaluation. For more information, please see “Chapter 10—Hurricane Harvey” in the [2018 Accountability Manual](#).

Appendix A:

2017–18 A–F Campus Ratings

The table on the following pages shows the grades that schools would have received for the 2017–18 school year if they had received A–F grades for the 2017–18 school year. The schools are listed in ascending order by district name then campus name.

The letters in the *School Type* column indicate the following:

- E = Elementary School
- M = Middle School
- S = Secondary School
- B = K–12 School

The non-A–F letters in the columns listing letter grades indicate the following:

- H = Not rated because of Hurricane Harvey
- X = Not rated for reasons other than Hurricane Harvey
- P = Paired campus (received only an overall grade)
