Secondary School Completion and Dropouts in Texas Public Schools, 1998-99: District and Campus Listings

Introduction

The listings in this report provide secondary school completion and dropout data at the district and campus levels as a supplement to the *Secondary School Completion and Dropouts in Texas Public Schools, 1998-99* (Texas Education Agency (TEA, 2000a) and *Secondary School Completion and Dropouts in Texas Public Schools, 1998-99: Supplemental District Data* (TEA, 2000c). This supplement includes annual dropout rates and the new longitudinal rates for secondary school graduates, General Educational Development (GED) recipients, continuing students, and dropouts. Campus and district listings of 1998-99 annual dropout rates, and completion status rates for the classes of 1998 and 1999 are presented. A schematic is provided illustrating the relationship, at the district level, of annual and longitudinal dropout counts. Listings at the county level are available in *Secondary School Completion and Dropouts 1998-99: County, District, and Campus Listings* (TEA, 2000b).

Calculations

All data used in this report were collected and reported by Texas public schools, charter schools, and school districts through the Public Education Information Management System (PEIMS) maintained by the TEA. The rate calculations are the same as those used in the Academic Excellence Indicator System (AEIS).

The annual dropout rate in this report is the percentage of students who dropped out of Grades 7-12 during the 1998-99 school year:

$$\text{annual dropout rate} = \frac{\text{number of dropouts during the school year}}{\text{total number of students served during the school year}} \times 100$$

Dropouts are defined and counted as per *1998-99 Public Education Information Management System Data Standards* (TEA, 1998), the *1999-2000 Public Education Information Management System Data Standards* (TEA, 1999a), the *2000 Accountability Manual* (TEA, 2000d), and *Secondary School Completion and Dropouts in Texas Public Schools, 1998-99* (TEA, 2000a). The total number of students in the denominator is the cumulative number of students in attendance in the district or campus at any time during the school year. The 1998-99 annual dropout rate is a base indicator in the 2000 campus and district ratings.

This year, TEA has introduced a new set of longitudinal rates. These rates show the high school outcomes for the members of Grade 9 cohort of students. Students who transferred out are removed from the cohort. Students who transferred in on grade-level are added to the cohort. The final status of each student is determined the year graduation was expected, or four years after entering Grade 9. The final four outcomes included are: graduated, received a GED certificate, continued high school, or dropped out.

As an example, the longitudinal rate for graduates is calculated by dividing the number of students who graduated by the number of students in the cohort:

$$\text{longitudinal rate, graduated} = \frac{\text{number of students graduating by year 4}}{(\text{number of students entering Grade 9}) - (\text{transfers out}) + (\text{transfers in})} \times 100$$

Longitudinal rates for GED recipients, students who continued high school, and dropouts are calculated in a similar manner. The sum of the four rates is equal to 100 percent. This year, rates are reported for two years: the class of 1998, or the 1994-95 Grade 9 cohort, and the class of 1999, or the 1995-96 Grade 9 cohort. The class of 1998 and class of 1999 longitudinal rates are report-only indicators in the 2000 AEIS.

Notes on Tables 1 and 2

ADA-eligible

Students eligible for Foundation School Program (FSP) funds (TEA, 1999b). All public schools in Texas are required to maintain records to reflect the average daily attendance (ADA) for the allocation of FSP funds and other funds allocated by the Texas Education Agency (TEA) (19 Texas Administrative Code §129.21(a)).

Cohort

TEA longitudinal secondary school student status rates are based on a Grade 7 or Grade 9 cohort. A 1994-95 Grade 9 cohort, for example, consists of all ADA-eligible students who attended Grade 9 in a Texas public school for the first time during the 1994-95 school year. The cohort is named based on the expected year of graduation. In our example, this is the class of 1998. Each member of the cohort is tracked through the fall of 1998, and a final status is assigned. Students who transfer out are removed from the cohort. Students who transfer in on grade-level—for example, into Grade 10 in 1995-96—are added to the cohort. The final status assigned may be: graduate, General Educational Development (GED) recipient, continuing, or dropout. Students with any other final statuses, or without final statuses, are removed from the cohort.

Continuing Student

A continuing student is one who was enrolled in a Texas public school in the fall of the school year following expected graduation.

Dropout

Dropouts are defined and counted as per *1998-99 Public Education Information Management System Data Standards* (TEA, 1998), the *1999-2000 Public Education Information Management System Data Standards* (TEA, 1999a), the *2000 Accountability Manual* (TEA, 2000d), and *Secondary School Completion and Dropouts in Texas Public Schools, 1998-99* (TEA, 2000a). A student who drops out but later returns or received a diploma or GED certificate is counted based on his or her final status, not as a dropout.

Economically Disadvantaged

The number of students eligible for free or reduced-price lunch or eligible for other public assistance is used as a proxy for the number of economically disadvantaged students. Eligibility for free or reduced price lunch or other public assistance is reported for each student at the time of enrollment.

Ethnicity/race

Ethnicity/race is one of the demographic characteristics reported for each student at the time of enrollment.

GED recipient

A student awarded a state-approved GED certificate.

Graduate

A student awarded a high school diploma by a Texas public school.

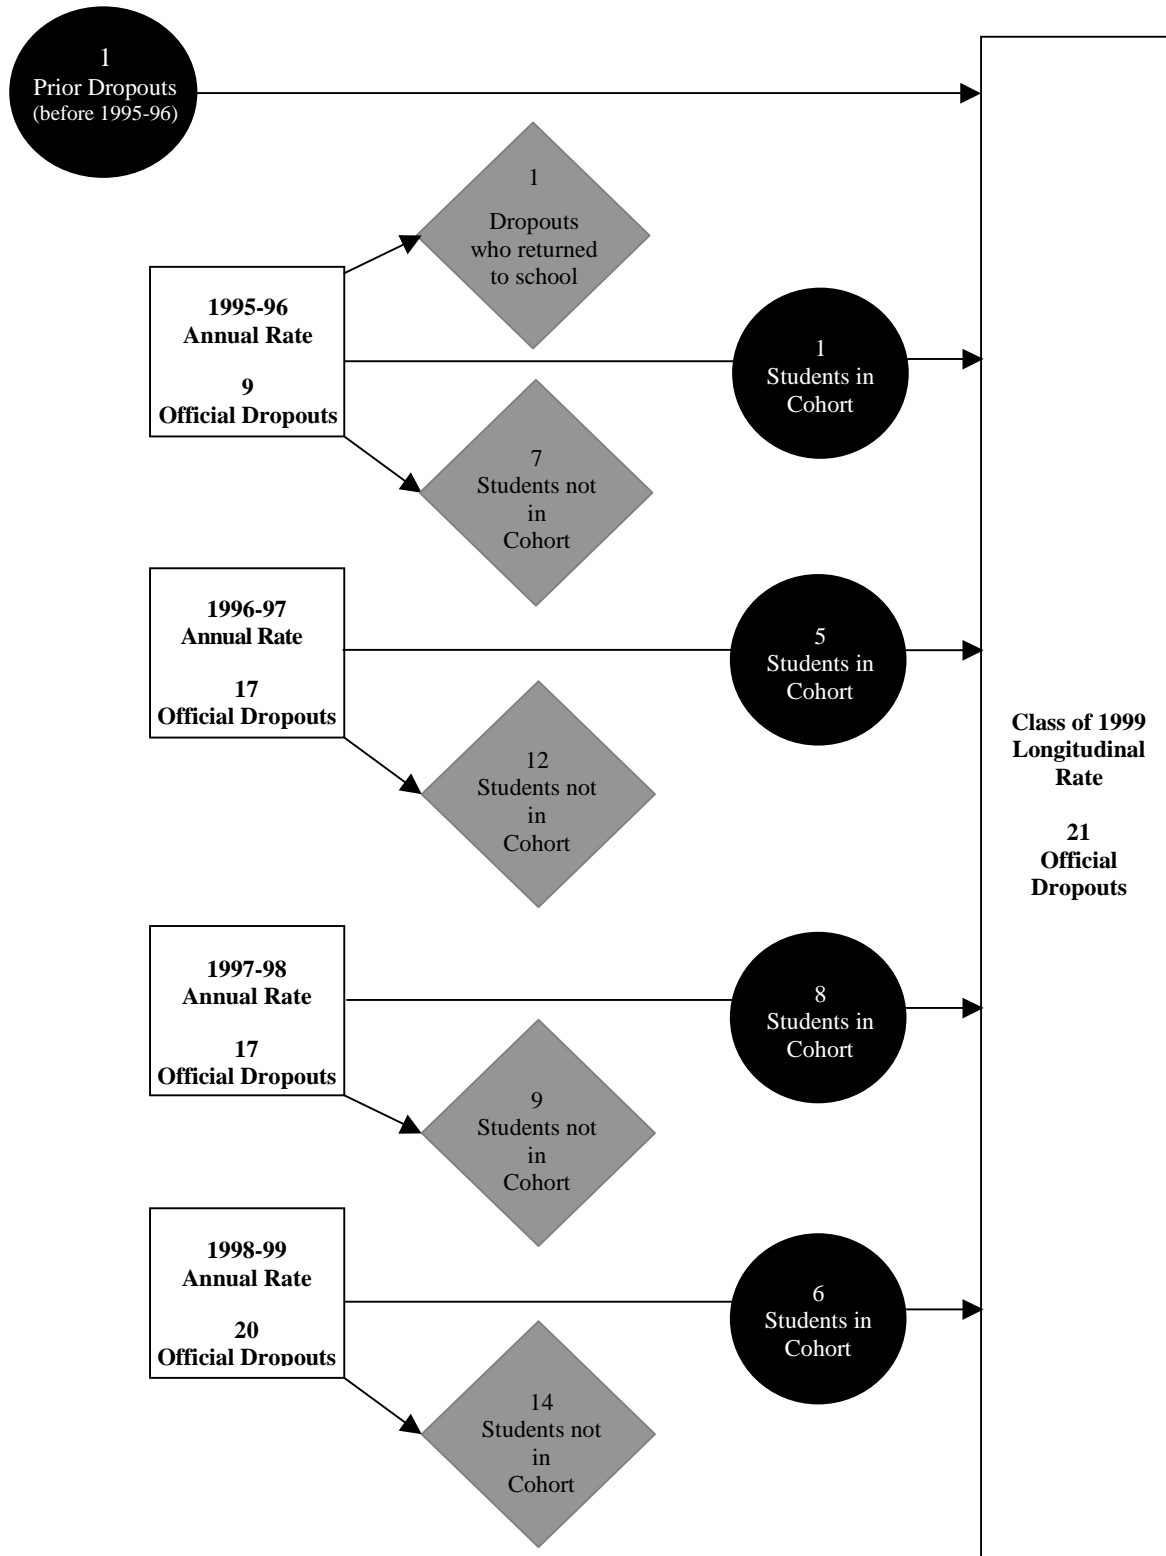

Total Students

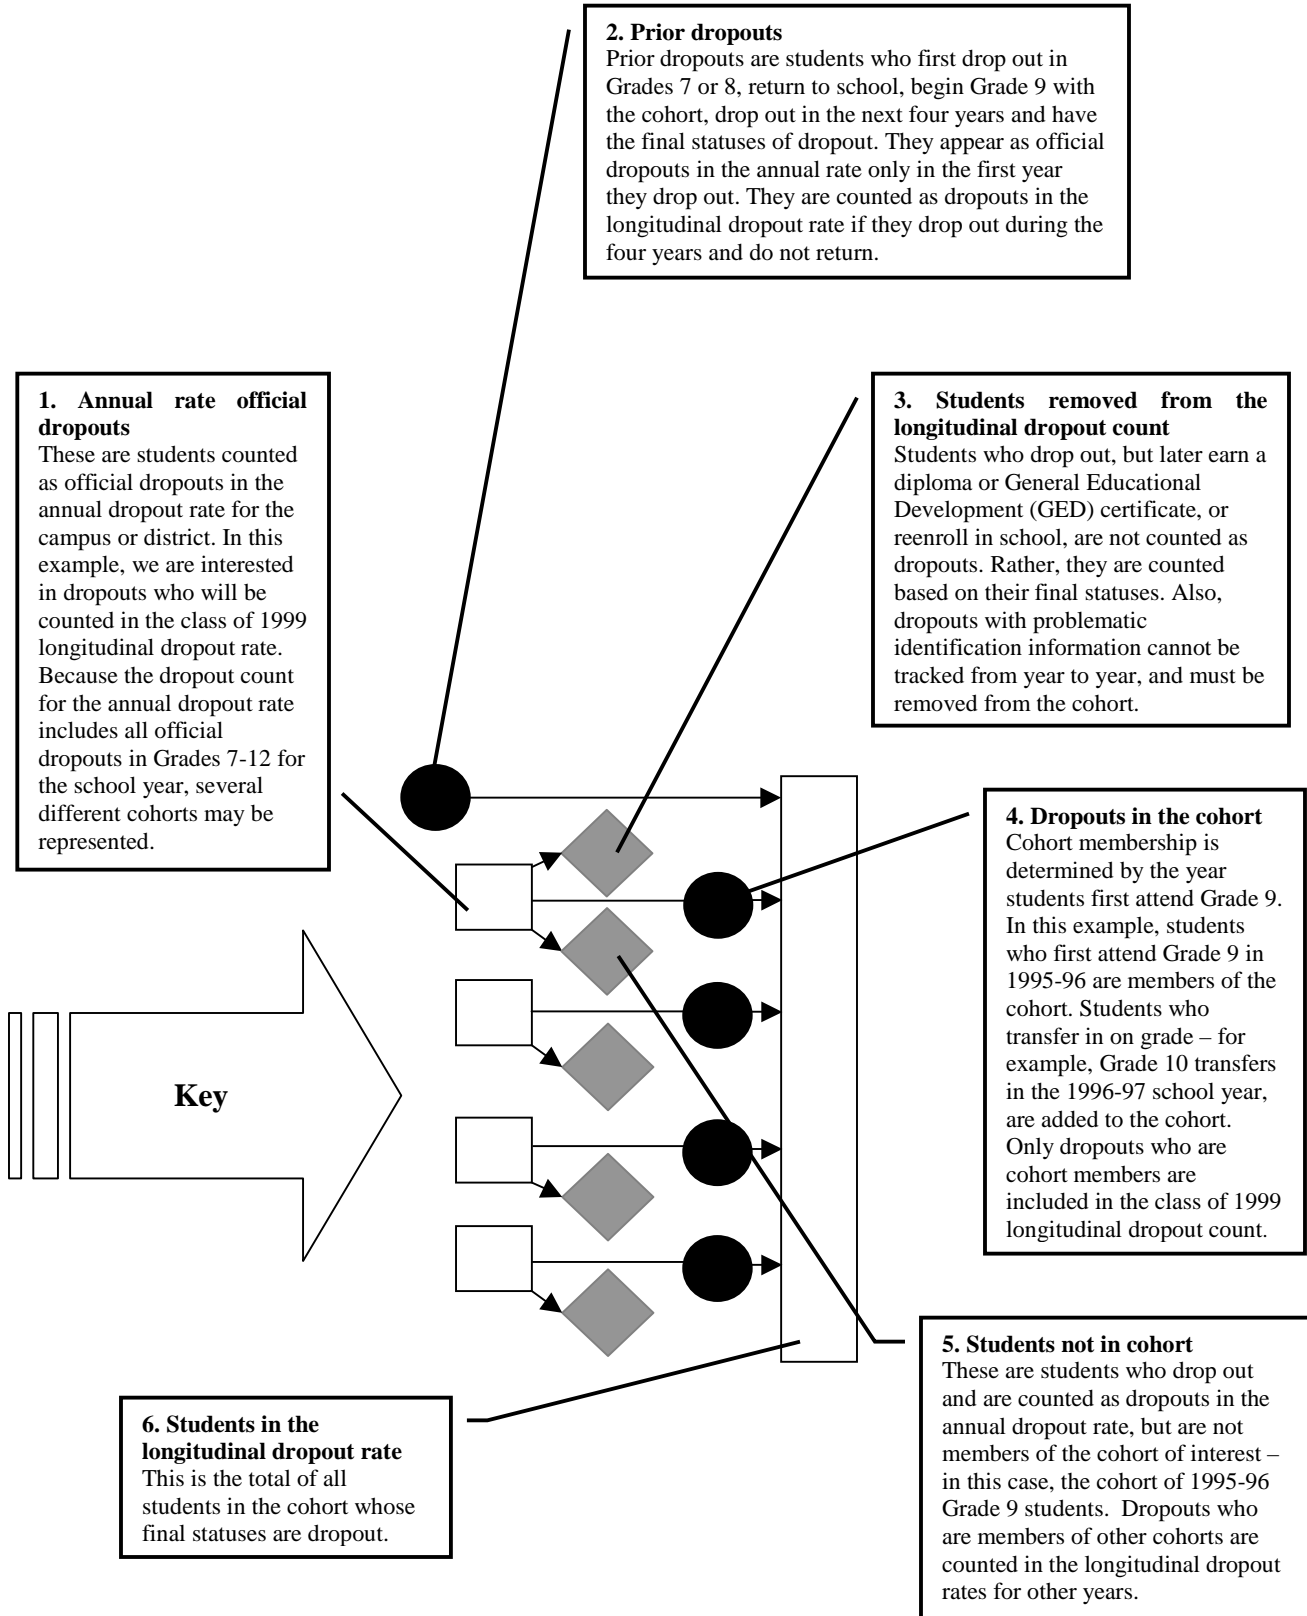

A cumulative total of ADA-eligible students served at the campus, or in the district, county, or state, during the school year.

Figure 1

Comparing Annual and Longitudinal Dropout Counts at the District or Campus Level

Figure 1. Comparing Annual and Longitudinal Dropout Counts at the District or Campus Level. This chart demonstrates how annual counts of official dropouts are related to the number of dropouts in the longitudinal rate at the district or campus level. The numbers provided in this chart are for illustration only. See facing page for a detailed explanation of each element in the chart.
