- G Change ***french*** to ***French***
- H Change ***of*** to ***with***
- J Change ***book*** to ***books***

# REVISING

**Read the selection and choose the best answer to each question.  
Then fill in the answer on your answer document.**

*Claudia wrote the following letter to her principal. Read her letter and look for any revisions she should make. Then answer the questions that follow.*

Dear Principal Jones,

(1) Many students enjoy learning when the learning involves doing activities. (2) One great way to learn science is through science experiments. (3) Unfortunately, the best place for conducting experiments is in a lab, and Nolan Elementary does not have one. (4) We can change that. (5) Students and teachers can work together to create a science lab.

(6) The National Science Teachers Association recognizes the importance of school science labs. (7) They are good places to develop safe habits while experiencing science. (8) Students naturally want to learn through experience and discovery. (9) That is why we need a lab at our school.

(10) Many people may say that a new science lab would be too costly. (11) However, a lab does not need to be expensive. (12) Our lab does not have to have all new furniture and supplies. (13) Most of what we need is in teachers' classrooms.

(14) Any large classroom in the school can become a science lab. (15) Once the space is chosen and set aside, the school community can pull together the materials in the selected location for our lab. (16) Inside the lab there should be wide tables. (17) There are dozens of large tables in the cafeteria, but the lab would only need about eight of them. (18) Each table should give a group of students enough room to work with many materials at one time and avoid accidents. (19) Most of the classrooms in this school have furniture that can be used for storage.

(20) Also, supplies for science experiments can be found in classroom closets at this school. (21) Teachers may bring these supplies out when they want to introduce an idea in a science lesson. (22) Teachers could be encouraged to donate some of their classroom supplies to the lab for students to use all year.

(23) Students at our school would be eager to learn in a space that is made especially for science. (24) Their classes could soon start meeting in this new area.

Sincerely,

Claudia Garcia

- 7 What is the **MOST** effective way for Claudia to write sentence 1?
- A Many students enjoy learning when activities are involved.
  - B If activities involve learning, many students enjoy doing them.
  - C When many students enjoy learning, activities are involved.
