

Professional Organizations

Science Teachers Association of Texas (STAT)

A statewide organization of elementary, middle level, and high school teachers, college educators, supervisors of science, and others dedicated to maintaining the highest levels of science and education in our schools.

<u>ACT2</u>	Associated Chemistry Teachers of Texas
<u>ISEA</u>	Informal Science Education Association
<u>TABT</u>	Texas Association of Biology Teachers
<u>TAEI</u>	Texas Association for Environmental Education
<u>TCES</u>	Texas Council of Elementary Science
<u>TESTA</u>	Texas Earth Science Teachers Association
<u>TMEA</u>	Texas Marine Education Association
<u>TSAAPT</u>	Texas Section, American Association of Physics Teachers
<u>TSELA</u>	Texas Science Education Leadership Association

National Science Teachers Association (NSTA)

The National Science Teachers Association is a member-driven organization, 60,000-strong. NSTA publishes books and journals for science teachers from kindergarten through college. Each year NSTA holds four conferences on science education: three regional events in the fall and a national gathering in the spring.

National Science Education Leadership Association (NSELA)

NSELA was formed in 1959 to meet a need to develop science education leadership for K-16 school systems. NSELA advances a broad array of topics including student learning, safety, curriculum, technology, professional development, assessment, inquiry, and science education reform.
